

# Understanding Bids

To stay an active PTAC client you must open your government bid opportunities found at mybidmatch.com. Failure to do so will result in suspension from the Program.

You will receive emails from the list of domains below – please update your spam filter if necessary.

- mybidmatch.com
- outreachsystems.com
- sector.org

## **Bid Match Solutions:**

Bid matches require customization to attain the most relevant opportunities – too many bid matches creates a burden on the user – make sure we are aware of either too many matches or not relevant matches so we may adjust your profile.

Some clients may experience problems linking to secure government websites. Recommendations to try to fix these problems:

- Update your Microsoft Office or browser software
- Check Security Settings in your browser
- Check your Anti-Virus settings
- Copy the link and paste it directly into the browser address bar
